

Wake Up to a Wonder of the World.

WWV Marketing Agency | Super Sphinx Hotel & Rooftop — 90-Day Hotel Launch & Viral Rooftop Strategy | Giza, Egypt 🇪🇬

GCE METHOD

CONFIDENTIAL STRATEGY BRIEF

The Opportunity

We're Not Repairing a Brand. We're Building One.

This is one of the strongest tourism launches available in the Egyptian market right now — precisely because we start from zero. No legacy baggage. No outdated positioning to undo. We get to build the **entire customer journey correctly, from day one.**

The Challenge

The competitive landscape around the Pyramids is crowded. Travelers already choose from Marriott Mena House, Great Pyramid Inn, Pyramids View INN, and a growing wave of boutique rooftop hotels — all competing on the same view.

The Answer

Don't launch as *"a new 26-room hotel in Giza."* Launch as something bolder, more emotional, more unforgettable. Own the positioning no one else has claimed — and use the rooftop to do it.

THE ROOFTOP WITH 4,500 YEARS OF VIEW.

This is not a tagline. This is the entire strategic framework. The rooftop becomes the billboard. The view becomes the campaign. The hotel becomes the destination.

Two Products. One Unstoppable Engine.

Super Sphinx operates as two deeply connected products. The rooftop generates attention, desire, and discovery. The rooms convert that desire into revenue. Each feeds the other.

Product 1 — The Rooftop The Attention Engine - Food, coffee & sunset dinners - Iconic photo moments - Romantic dates & proposals - Creator content hub - Events & cultural evenings	Product 2 — The 26 Rooms The Revenue Engine - Boutique, intimate, personal - Pyramid-view room categories - Premium packages & stays - Honeymoon & couple experiences - B2B & agency partnerships
---	---

The rooftop is the billboard for the hotel. Every rooftop customer is exposed to the rooms — and every guest becomes a story worth sharing.

Brand Positioning

Something More Emotional Than "Pyramid View."

Every competitor within a 2km radius claims a pyramid view. That phrase has been commoditized. Super Sphinx needs positioning that is **emotional, memorable, and internationally shareable** — the kind of line that travels on its own.

Hotel Headline

SUPER SPHINX — WAKE UP TO A WONDER OF THE WORLD. Speaks directly to the guest's morning experience. Aspirational, visual, and unmistakable.

Rooftop Tagline

YOUR TABLE HAS BEEN WAITING 4,500 YEARS. Elegant, witty, and infinitely shareable. This line alone is a campaign.

Alternative

Dinner with the oldest view in town. Modern. Fun. International. Perfectly suited for social media audiences and younger travelers.

Target Audiences

Seven Distinct Audiences. One Rooftop to Unite Them.

Foreign Tourists

Ages 23–55. Couples, solo travelers, honeymooners, first-time Egypt visitors, adventure travelers. **#1 priority.**

Couples & Honeymooners

The rooftop is built for romance. Sunset, dinner, Pyramid views, and photos — *"Some dinners you forget. This one has the Pyramids."*

Egyptians Abroad

They've seen the Pyramids — but never had breakfast overlooking them. A powerful emotional reconnection campaign awaits this segment.

Cairo Expats

People already living in Cairo seeking weekend experiences, dates, and Instagrammable venues. Easiest audience to acquire and activate locally.

Content Creators

Disproportionate impact. Every creator becomes free distribution. Design the property intentionally around content creation opportunities.

B2B & Tour Operators

Inbound operators, DMCs, overseas agencies, tour guides, small groups.
26 rooms × recurring agency relationships = sustainable occupancy.

Competitive Landscape

"We Have a Pyramid View" Is Not a USP.

Every property in Giza says it. Our advantage must be built around **the experience we create around the view** — not the view itself.

Premium Tier

Marriott Mena House — Prestige, heritage grounds, and full upscale hotel infrastructure. Competes on brand recognition and established luxury positioning.

View-Led Boutiques

Great Pyramid Inn, Pyramids View INN, Hayat Pyramids View — All directly market pyramid-view rooms and rooftop dining. Proximity is their primary claim.

Super Sphinx

The only property built around **VIEW + VIBE + CONTENT + EXPERIENCE**. Competitors may have a view. We make ours famous.

📌 The rooftop is not an amenity. It is a destination. People should eventually say "Have you been to Super Sphinx rooftop?" — without ever having stayed at the hotel.

The Hero Product

The Rooftop IS the Hotel's Biggest Sales Asset.

The rooftop should not be treated as an amenity or bonus feature. It becomes its **own standalone destination** — with its own identity, its own audience, and its own viral strategy. When the rooftop is famous, the hotel fills itself.

Six Offers. Zero Discounts. Maximum Desire.

Because we're launching from zero and need bookings quickly, we build multiple experience-led offers rather than cutting room rates. Every offer adds value — not price reduction.

1	Grand Opening Wake Up to the Pyramids. Room + breakfast + arrival experience value. Airport pickup credit or rooftop dinner included. Never discount — add experience.
2	Sunset Stay 24 Hours With the Pyramids. Check-in → Sunset rooftop → Dinner → Room → Breakfast. Perfect for couples and short-stay international travelers.
3	Rooftop Breakfast Breakfast with the Pyramids. Open to non-guests. A standalone product with genuine viral potential — independent of hotel occupancy.
4	The Pyramid Date Reserved table. Set menu. Sunset. Photo moment. Optional flowers and cake. The ideal local acquisition product for Cairo audiences year-round.
5	Stay + Tour 2–3 nights. Airport pickup. Breakfast. Pyramids & GEM experience. Super Sphinx competes for total trip spend — not merely room spend.
6	Stopover Egypt One Night. One Wonder. For travelers with 24–48 hours in Cairo. Airport → Hotel → Pyramids → Rooftop → Sleep → Airport. Extremely sellable internationally.

Launch Approach

Two Parallel Tracks. Because We Can't Wait for Perfect.

Hotel marketing cannot afford a 60-day "preparation period." Seasonality is real. Timing matters. We run brand-building and revenue generation **simultaneously from Day 1.**

Track A — Brand Build

- Social media platforms live
- Content production & photography
- Website build
- B2B identity and outreach kit
- Creator campaign briefing

Track B — Immediate Revenue

- OTA listings live and optimized
- Google Hotel presence established
- Launch inventory and opening offer
- Direct booking landing page
- Travel agency outreach begins

Video-First. Pyramids Everywhere. Always.

Every piece of content needs the Pyramids visible. The property's visual language is non-negotiable — the view is in every frame, every story, every reel. Here's how we divide the content mix:

The rooftop and view dominate the content calendar at 35% — because the view sells everything else. Guest experience content (15%) builds trust. Offers drive direct bookings without discounting the brand.

Hero Launch Video

The First Major Advertisement.

Scene Sequence

1. Black screen. Alarm clock sounds.
2. Curtains open slowly.
3. Massive Pyramid reveal.
4. Text: **"Imagine waking up to this."**
5. Cut: Coffee. Rooftop. Breakfast.
6. Room. Sunset. Dinner. Night.
7. Logo appears.
8. **SUPER SPHINX — Wake Up to a Wonder of the World.**

Why This Works

The alarm clock is a universal emotional hook — it triggers the audience's own desire to escape their morning routine. The Pyramid reveal is the payoff. No voiceover needed. The visual does everything.

This becomes the anchor for every subsequent campaign, creating a recognizable visual grammar that all future content references back to.

Creative Ideas

10 Viral Concepts Ready to Film.

1 The 4,500-Year Reservation

Waiter sets a rooftop table. Plate. Glass. Chair. Pyramids behind. Text: **"Your table has been waiting 4,500 years."** Elegant and incredibly simple.

2 The Worst View in the Hotel

Creator: *"They gave me the worst view at this hotel..."* Opens curtain. Pyramids. Pause. *"I think I'll survive."* TikTok/Reel-native — built to be reshared.

3 Room Service Has Competition

Beautiful breakfast enters. Camera pans to window. Text: *"The breakfast is good. The view is showing off."* Warm, charming, highly shareable.

4 POV: You Booked the Right Hotel

Taxi → Entrance → Check-in → Room → Curtain → Pyramids → Rooftop → Sunset → Dinner. Text: **"POV: You understood the assignment."**

5 Hotel or View?

Split screen. Left: Beautiful room. Right: Pyramids. Poll: ROOM 🏠 or VIEW 📍. Comments explode. Massive engagement driver.

More Creative Concepts

Five More Campaign Hooks.

Pyramid Alarm Clock

Phone alarm. Guest wakes. Opens curtain.
Pyramid. Text: "**Best alarm clock in Egypt.**"
Immediately shareable worldwide.

24 Hours at Super Sphinx

8AM breakfast → Pyramids → GEM →
Sunset → Dinner → Night view → Sunrise.
Ends: "**Would you spend 24 hours here?**"
Full day documentation format.

Sunrise vs. Sunset

Same rooftop. Two shots. **TEAM SUNRISE**
 **vs. TEAM SUNSET** . Recurring
engagement format — runs weekly with
zero extra production cost.

No Green Screen

Creator: *"Before anyone asks..."* Camera pans. Pyramids. *"No. That's not a green screen."* Perfect for foreign-tourist humor and disbelief reactions.

4,500 Years Apart

Pyramid shot. Then modern rooftop. Text: "**Built 4,500 years apart. Perfect together.**" Premium brand storytelling. Beautiful and timeless.

Rooftop Viral Strategy

The Pyramid Rooftop Everyone Posts From.

The rooftop needs intentional **content architecture** — physical design choices that guarantee every visitor creates high-quality, recognizable content. Here's how we engineer virality into the space itself.

The Super Sphinx Frame

One iconic photo position — an elegant architectural installation aligned perfectly with the Pyramids. Every visitor takes the same hero shot. Small branding. Eventually: *that photo = Super Sphinx*.

Table 4500

One specific table. Best view. Premium reservation. Special menu and service. Highly photographed. The table itself becomes a product people request by name.

The Sunset Bell

A nightly branded ritual. Music changes. Signature drink served. Everyone watches sunset together. Film it every evening. *Sunset becomes an event, not just a time of day.*

Breakfast Before the World Wakes

Limited sunrise breakfast — extremely visual and exclusive-feeling. *"Before Cairo wakes up, have breakfast with history."* Creators will pursue this experience independently.

Every Guest Leaves With Content — and Creates Ours.

Five Signature Photo Locations

01

The Window

Morning Pyramid reveal from the room.

02

The Breakfast Table

Coffee and food with Pyramids behind.

03

The Rooftop

The hero shot — the Super Sphinx Frame.

04

The Sunset Seat

Golden hour silhouette moment.

05

The Night View

Pyramids illuminated after dark.

The Super Sphinx Shot

One signature image: guest seated, coffee in hand, Pyramids perfectly framed. Every creator recreates it. This is how the hotel builds a visual brand asset that **customers produce for free**.

Small tasteful QR at each location: **Tag @SuperSphinx** — then reshare constantly. The content engine runs itself.

Creator Launch Strategy

Before Cold Ads — The Creator Invasion.

Before spending on cold paid acquisition, we seed the market through creators who will generate authentic, highly shareable content. The goal is to make social media feel like: "**Why is everyone suddenly at this place?**" — and that's entirely intentional.

1

Phase 1

Invite **10–15 local micro-creators** in food, travel, lifestyle, couples, and photography niches. Stagger arrivals — not all on the same day.

2

Phase 2

Bring in **5–10 foreign travel creators** already in Egypt. Give them the full 24-Hour Super Sphinx Experience — room, sunset, dinner, breakfast.

3

The Brief

Don't say "post our hotel." Say: "**Here is the Super Sphinx 24-Hour Experience.**" Let them document it. Authentic content always outperforms scripted.

"I found a hotel in Egypt where THIS is the breakfast view." [Pyramids reveal] — That hook is infinitely stronger than "Welcome to Super Sphinx Hotel."

Media Buying

Initial 100K EGP — Precision, Not Scatter.

We treat the first 100K EGP as an **acquisition pool, not a branding budget**. Start with 2–3 source markets. Measure actual bookings. Scale winners fast. Shift budget as data arrives.

Segment

⚠ We do NOT optimize for messages. We measure Cost Per Booking and ROAS only. "700 messages" is not a result. Revenue is the only metric that matters.

Website Strategy

Sell the View Within the First Second.

Homepage Design Mandate

Full-screen video. Pyramids. Rooftop. **WAKE UP TO A WONDER OF THE WORLD.** Then immediately: Check-in / Check-out / Guests / **BOOK NOW.** No long corporate introduction. No brand story paragraph. The view speaks first.

Site Architecture

- **STAY** — Rooms and view categories
- **ROOFTOP** — Food, experiences, reservations
- **EXPERIENCE GIZA** — Tours and recommendations
- **OFFERS** — Packages and seasonal promotions
- **GETTING HERE** — Airport and directions
- **BOOK** — Direct booking engine

- ❏ The "View Guarantee" is a competitive advantage built into the booking flow itself. PYRAMID VIEW / PARTIAL VIEW / STANDARD — never let guests discover at check-in that their room doesn't have the view they expected. Transparency builds trust.

Room Sales & Occupancy

26 Rooms Is a Precision Problem — Not a Mass-Lead Problem.

With only 26 rooms, we don't need millions of impressions. At an average stay of 3 nights and 80% occupancy, we need roughly 200 occupied-room bookings per month. That changes how we think about acquisition entirely.

26

Boutique Rooms

Small enough to feel exclusive. Large enough to generate serious revenue with the right occupancy strategy.

80%

Target Occupancy

A precision acquisition goal — achievable with B2B partnerships, direct bookings, and OTA optimization working in parallel.

6

Key Metrics Tracked

Occupancy %, ADR, RevPAR, Direct Booking %, OTA %, and Acquisition Source — adjusted dynamically each week.

The long-term OTA strategy: **OTA discovers us → Direct booking retains us.** Every guest receives an incentive to book direct on their next stay. Build Google Hotel presence, Tripadvisor authority, and review volume from Guest #1.

B2B Strategy

The Travel Partner Program That Fills 26 Rooms.

B2B is one of the most powerful levers available to a 26-room boutique hotel. A handful of strong agency relationships creates predictable, recurring occupancy — independent of seasonal fluctuations in direct bookings.

Target Partners

- Inbound tour operators
- Overseas travel agencies
- DMCs and ground handlers
- Tour leaders and guides
- Photography & content trip organizers

The Pitch

"Give your Egypt clients the view they came for." Agency receives net rates, room inventory, rooftop experience, airport transfer options, and fast WhatsApp B2B support.

The B2B Sales Kit

- 10-slide hotel deck
- Room rate sheet
- Fact sheet & photo library
- Video library and reels
- Location map & transfer info
- Contract / commission structure

30-Day Emergency Launch Plan

Speed Over Perfection. Move in Waves.

90-Day Roadmap

Three Months. Three Objectives. One Brand Built.

Month 1 — Make It Famous

Goal: Attention + Immediate Bookings. Hero launch video. Rooftop activation. Creator campaigns. Opening offer live. OTA and performance marketing running. The world learns Super Sphinx exists.

Month 2 — Make It Trusted

Goal: Social Proof + B2B Pipeline. Guest reviews accumulate. UGC and real guest experiences published. B2B outreach converts. Travel creators add editorial credibility. PR begins.

Month 3 — Make It Consistent

Goal: Predictable Revenue. Scale winning source countries. Direct booking percentage grows. Retargeting converts warm audiences. Corporate and B2B relationships generate recurring room nights. Rooftop programming runs on schedule year-round.

Weekly Reporting Across Every Revenue Stream.

We report on everything that drives money — not vanity metrics. Every week, the owner sees a complete picture of what's working, what needs to shift, and where the next booking is coming from.

❏ The Pyramids are our influencer. Every advertisement uses them differently — breakfast, sleep, dinner, sunrise, sunset, coffee, proposals, birthdays, first trips, last nights. The view is our content engine.

The WWV Full-Service Offer

Everything from A to Z. One Investment.

Don't hire a social media agency. Don't hire a web developer. Don't hire a brand consultant separately. WWV manages the entire Super Sphinx launch as a single, integrated operation — brand to booking, rooftop to revenue.

Strategy & Creative

- Full launch strategy (GCE Method)
- Content plan & editorial calendar
- Art direction
- 15–20 professional reels
- 10–15 professional posts + stories

Execution & Management

- Social media platform management
- Community moderation
- Dedicated account manager, 24/7
- Media buying & performance campaigns
- Weekly reporting dashboard

Infrastructure

- Professional website with booking engine
- OTA setup and optimization
- B2B sales kit creation
- Offline campaign management
- Full project management A to Z

Your Investment

40K / mo

Instead of the standard rate of 75K/mo. Everything above — delivered, measured, and scaled.

The End Goal

We don't want people saying *"Super Sphinx is a hotel near the Pyramids."*

We want: **"That's the hotel with THAT rooftop." — "Can we stay there?"**

Make the rooftop famous. Let the rooftop fill the hotel.

26 Rooms. One Iconic View. Thousands of Stories.

SUPER SPHINX × WWV MARKETING AGENCY

Let's build this from day one — correctly.

GCE METHOD

GROWTH · CONVERSION · EXECUTION
